

5.08xN

Technical drawing of a multi-bore manifold. The drawing shows a cross-section of the manifold with two main sections. The left section has two bores, and the right section has three bores, with a dimension of $5.08 \times (N-1)$ indicating the spacing between the bores. The total width of the manifold is 3.5 ± 0.3 . The distance between the centers of the bores is 5.08 . The distance from the center of the first bore to the left edge is 3.54 . The distance from the center of the last bore to the right edge is 0.45 . The drawing also shows the internal structure of the manifold, including the bores and the connecting passages.
